Accessories are supplied with the above products.	36

Requirements

The warranty period begins on the earlier of the following dates:

- 1) Purchase date on a valid purchase invoice presented by the user.

This is a limited warranty that only covers the repair or replacement of a defective product. STRONG Energy will repair or replace the product if the product is defective and a claim is made during the warranty period. This warranty does not apply to accessories and tool kits not listed in the table above. If the product needs to be replaced, the remaining warranty period will be transferred to the replacement device, i.e. the warranty period of the original device will continue. In this case, you will not receive a new warranty card and this replacement will be registered by STRONG Energy. If the remaining warranty period is less than 6 months, you will automatically receive a 6-month warranty period for the replacement device.

For repair or replacement service, the products/parts may be used in new or refurbished condition with equal or greater performance than defective products.

If the product is no longer on the market, STRONG Energy may replace it with another product with similar function and performance.

The buyer's statutory warranty obligations, which may not lawfully be excluded or limited, are not affected by this STRONG Energy guarantee. Furthermore, national legal rights remain unaffected by the provisions of this STRONG Energy guarantee.

1. Disclaimer of Warranty

- 1) The above-mentioned guarantee period has already expired.
- 2) Product damage and defects caused by improper use, misuse, or mis-operation by the user.
- 3) Alterations or repair attempts have been made by persons not authorized by STRONG Energy, or the product's model number, nameplate, or serial number has been altered, deleted, or is no longer recognizable, or the tamper-evident logo has been arbitrarily damaged.
- 4) The product was installed or put into operation incorrectly, considering the user manual, installation instructions, and maintenance instructions.
- 5) You or another user have violated the safety regulations (VDE standards or equivalent).
- 6) The product was stored improperly and was damaged during storage by the retailer or the end user
- 7) Product damage and defects caused by improper packaging, transportation, storage, installation, wiring and use with faulty or incompatible devices by the user.
- 8) Product damage and defects caused by negligence, accidents, or force majeure events including but not limited to external influences, unusual physical force, the force of nature, lightning, flood, fire, extremely cold weather, etc., or other events beyond the STRONG Energy has reasonable control.
- 9) Product damage and defects caused by external influences, including abnormal physical or electrical stresses (power failure, inrush current, lightning, flood, fire, accidental breakage, etc.);
- 10) The damage is only cosmetic and has no impact on the function of the device.
- 11) Product damage and defects arise due to the renewal of national or regional laws or regulations.
- 12) Product damage and defects caused intentionally by the user.
- 13) The product is used for an application other than that specified.
- 14) The product is installed in a country where the product is not intended to be sold. The products are currently only allowed to be used in Austria and Germany.
- 15) A product defect will not be reported to STRONG Energy within 4 weeks of occurrence

2. Error handling

(1) If the product fails, the user must cooperate with STRONG Energy to obtain information about the usage of faulty equipment, including but not limited to the serial number of the faulty equipment, working temperature, usage mode, manufacturer/model/specification of the connected portable product, device power consumption information, system configuration information, error phenomena, operating procedures, battery operation logs, purchase date, etc.

(2) After both parties mutually agree that the product is within the scope of the warranty, the defective components can be replaced with spare parts. The replacement of spare parts may only be carried out by STRONG Energy authorized employees or partners.

(3) If the two parties do not agree as to whether the defective device meets the warranty conditions, the product may be tested jointly in the manner approved by both parties, or the product may be submitted to the independent testing institutes recognized by both parties. Both parties can express reasonable opinions on the test methods, basis, and conclusions. The test fee must initially be borne by the user. If the test result proves that the product meets the warranty conditions, STRONG Energy will pay the incurred transportation fee and the test fee in full to the user and assume responsibility for the warranty for defective equipment.

(4) If the product needs to be transported from one place to another, the following transport requirements must be met:

- a. If the product is transported separately, each product should be transported with the original packaging materials. If long-distance transport such as B. If sea transport is required, additional packaging measures should be taken to ensure the safety of transport. The product stack during transportation does not exceed the originally designed layers.
- b. If the product is not transported with the original packaging materials, the user must fully consider the risks of vibration, falls, and collisions during the transportation process and take appropriate product protection measures.

3. Out of warranty

Concerning the service for the products outside of the warranty, STRONG Energy may provide the user with specified after-sales service upon written request to the authorized STRONG Energy service partner, and all costs and expenses, including but not limited to the materials, parts - or labor costs are borne by the user.

If the User notifies in writing that service is requested out of warranty, the User must provide a detailed description of the defects so that the STRONG Energy authorized service partner can determine whether the defect can be corrected or not. For the avoidance of doubt, STRONG Energy shall in no event be liable for any out-of-warranty service.

4. Claim

Claims can be made to the authorized retailer where the product was purchased or to STRONG Energy directly. You must notify STRONG Energy of a claim within 4 weeks of discovering a defect.

To claim this warranty, you must provide us with the following information and documentation about the defective inverter:

- 1) Product model and serial number.
- 2) A copy of the valid purchase invoice.
- 3) Error descriptions and error IDs (if applicable).
- 4) Information about the end user and/or claimant.
- 5) Detailed information about the entire system (module, PV system plan, installation date, etc.).
- 6) Documentation of previous complaints/exchanges (if applicable).

An assignment and/or transfer of these rights to persons other than a person entitled to the guarantee is not permitted. The person entitled to the guarantee is exclusively the buyer of the products or a third party named by him.

STRONG Energy may contact the user to obtain further information regarding a defect. STRONG Energy may require the user to conduct a detailed analysis of the product to provide evidence to support the claim. Final verification of the claim will be conducted by STRONG Energy. If the user disputes STRONG Energy's verification of the claim, the product must be evaluated by a government-certified testing laboratory or a certified third-party testing company. The user is responsible for the cost of the third-party evaluation service fee (unless the claim is proven to be legitimate, in which case STRONG Energy is responsible for the testing cost).

If the product is defective during the STRONG Energy warranty period, it will:

- repaired by STRONG Energy, or
- repaired on-site, or
- Replaced with a refurbished product that includes all firmware updates

Defective products and components should be returned to STRONG Energy, they must be packed for transport in their original packaging or equivalent packaging. STRONG Energy reserves the right to arrange warranty service for users and to engage third parties to perform warranty services.

To make a claim directly with STRONG Energy, please contact:

5. Applicable Law

The guarantee is subject to German law, excluding the UN Convention on Contracts for the International Sale of Goods, in addition to other rights and remedies to which a consumer is entitled by law.

6. Disclaimer

To the extent permitted by law, STRONG Energy assumes no liability for any loss, corruption, or corruption of data, loss of use of products and functionality, loss of business or orders, loss of profits, loss of revenue, or loss of expected savings, increased costs or expenses or for any indirect loss or damage, consequential or consequential loss, special loss or damage or punitive damages. To the extent permitted by law, STRONG Energy's liability is limited to the purchase value of the product. The above limitations do not apply in the event of gross negligence or willful misconduct on the part of STRONG Energy or in the event of death or personal injury proven to be due to STRONG Energy's negligence.
